Why choose our hair?

Our company has a good relationship with most of nurseries in Brazil, India, Malaysia and China etc. So we have the privilege to get the raw hair from them. This way makes our hair is totally original and virgin, also from one donor. Also we put 10% concern to keep the cuticle aligned, so all the processes are without chemical and bad smell.

Human Hair Maintaining Tips:

- a), Don't cut the hair weft to small pieces when fixing, it makes the hair easy to be shedding.
- b), Don't color your extensions by yourself; leave that to the professionals.
- c), Pull hair into a ponytail using a hair tie before you go to bed, so it will not get rough.
- d), Brush your hair several times a day, it can keep the hair away from tangling. But if you bought the curly hair, please don't comb or brush, just use fingers to go through your curly hair.
- e), Wash your hair regularly with hair shampoo & hair conditioner in warm water. And brush the hair inside water if it's a little tangle and it's better make it towel dry.
- f), Spray the hair with nutrition hair care oil once a week to keep it moisturized.

FAQ

1.Q: Why the colors of hair products don't seem exactly as the pictures show or description says?

A. Different monitors have different displays. And every time, maybe the same order No. will have a little color difference. Please ask a help from the hair dresser for the colors' code as the international color swatch says.

2.Q: Can texture hold long, can texture be duplicated exactly like pictures that I will send you?

A. Our texture patterns are permanent even after many washes, the curly or wavy texture pattern is permanent and returns when the unit is wet and air returns when the unit is wet and hair dried. Nobody can ensure duplicating a texture can 100% exactly like your picture. But we can ensure we are greatly at curly, wavy texture matching!

3.Q: How to tell human hair with synthetic hair?

A. Human hair has natural protein. It is easy to tell by burning and smell: human hair will be ash, which will go away after pinching. Human hair will smell foul. When burning, the human hair will show white smoke. While synthetic hair will be a sticky ball after burning and will show black smoke. Moreover, human hair may have very few gray hair and split ends. It is normal and not a quality problem.

4.Q: How long does it last?

A: This hair can last for a very long time depending on how you maintain it. Treat it like your own hair and take very good care of it for it to last longer. Many hair extensionists prefer Brazilian or Indian hair because it is beautiful and unprocessed which makes it last longer than any other kind of hair.
