#### Advantages

The inflatable tents are perfect for families seeking for a tent that combines performance with practicality. An eight-person tent, a meeting room, play area or a hang-out, this tent can do it all. The large front door is backed full a full mesh panel for insect free ventilation and the three tinted windows feature their own toggle up curtains for privacy. Three rain safe vents also allow for a healthy airflow through the tent.

#### Product introduction

The tent is a versatile tent designed to provide multiple applications. It features multiple valves which help with letting the air out when taking the tent down and as the beams are all joined, you can quickly and easily inflate the tent from a single inflation point.

Made from HydroTex Polycotton RS, a tough, fast drying fabric designed for the rigours of family camping. It maintains a stable internal micro-climate and allows water vapour to freely pass through while keeping out water. Made from a cotton/ polyester mix with UV-inhibitors and a DWR finish to add longevity to the fabric.
